Charter Schools Process for Requesting an Indirect Cost Rate

Open enrollment charter schools must request an indirect cost rate each year by completing and submitting an online survey. The deadline to submit the survey and request an indirect cost rate for the 2026–27 school year is March 27, 2026.

Charter School Indirect Cost Rates Based on Resident School District Data

The Texas Education Agency (TEA) will access certified Public Education Information Management System (PEIMS) data related to each charter school’s resident public school districts and their respective calculated indirect cost rates to derive rates for charter schools that have requested a rate via the survey.

Completing and Submitting the Survey

The [Request for an Indirect Cost Rate for Charter Schools for 2026–2027](#) survey is also available via the [Indirect Cost Rates](#) webpage.
